Making it easy for rod builders to select just the right colors, we proudly introduce the "Color Number System™" or CNS for short – which provides the rod builder the ability to easily identify colors and shades of colors based on their numbering.

The New Standard in Thread Wrap. In development for over a year and rigorously tested by rod builders, ProWrap™ thread is available in over 136 colors in Nylon, Color Fast, Metallic, Metallic Twist and Metallic Braid – in three familiar spool sizes – 100yd, 1oz. and 4oz. The 100yd snap spools work perfectly on power wrappers. ProWrap™ thread features strong tensile strength and bright colors that have been pressure dyed for color consistency.
